**Portfolio:** <https://walid-portfolio-2001.netlify.app/>

---

## EDUCATION

**Mansoura University**

**BACHELOR'S DEGREE IN COMPUTER SCIENCE**

**GRADUATION YEAR:** 2022 - 2023

---

## SUMMARY

Experienced Frontend Developer specializing in dynamic, responsive web applications using React.js and Next.js. Proficient in modern JavaScript (ES6+), TypeScript, and Redux Toolkit. Skilled in building reusable components, integrating APIs, and optimizing performance. Dedicated to delivering scalable, user-friendly interfaces that align with UX/UI best practices.

---

## EXPERIENCE

**Freelance Frontend Developer:** *(Self-employed - 6 months)*

- Collaborated with senior developers to execute tasks efficiently, delivering high-quality solutions.
- Implemented responsive designs and reusable components using React.js and Tailwind CSS.
- Improved website performance by optimizing rendering and reducing API response times.

**Frontend Developer – Graduation Project:** *(University Team Project)*

- Took full responsibility for designing and implementing the frontend of the graduation project.
- Developed a user-friendly interface, ensuring responsiveness and seamless user experience.
- Applied modern tools and technologies to create a scalable and visually appealing design.

---

## SKILLS

**Frontend Development:** HTML, CSS, JavaScript, React.js, Next.js, TypeScript

**Styling & Frameworks:** Sass, Bootstrap, Tailwind CSS

**State Management:** Redux, Redux Toolkit

**Tools & Version Control:** Git, GitHub

---

## PROJECTS

---

### E-commerce App:

**Technologies:** *React.js, Redux Toolkit, Axios, Bootstrap, JSON-Server, JSON-Server-Auth*

**Key Features:**

- **Comprehensive Pages:** Home, About, Categories, Products, Cart, Favourites, Profile, and Orders.
- **Secure Authentication:** Secure login required for cart, favorites, profile, and orders.
- **Advanced Search:** Find products by name, category, or filters.
- **Cart & Favourites:** Add, manage, and save products (authentication required).
- **Profile & Orders:** View/update personal info and track orders.

**Demo:** [Live Demo](#) | **GitHub:** [Source Code](#)

### Islamic App:

**Technologies:** *Next.js, TypeScript, Axios, Tailwind CSS*

**Key Features:**

- **Quran:** Full access to all Juzs, Surahs, and Ayahs, with audio recitations.
- **Hadiths:** Includes 1000+ Hadiths from Sahih Bukhari.
- **Prayer Times:** Accurate timings for cities and provinces.
- And many features for you to explore on your own.

**Demo:** [Live Demo](#) | **GitHub:** [Source Code](#)

### My Portfolio:

**Technologies:** *React.js, Bootstrap, Framer Motion, Swiper.js, EmailJS.*

- Showcases skills, projects, and services with animations and interactive design.
- Integrated a real-time email form to allow direct communication.

**Demo:** [Live Demo](#) | **GitHub:** [Source Code](#)
